TECHNICAL SKILLS

Languages: C++, C, JavaScript, TypeScript

Frameworks and Libraries: React.js, Node.js, Express.js, HTML, CSS, Tailwind CSS, Firebase, Mongoose, Material-UI, Shadcn UI, Chakra UI

Database Technologies: MongoDB, SQL

Theoretical Concepts: Operating Systems, DBMS, Computer Networks, DSA, OOPS

Developer Tools: GitHub, GitHub Desktop, Visual Studio Code

Professional EXPERIENCE

SDE Intern

October 2024 – Present

Trustt (formerly Novopay)

Bangalore, India (Onsite)

- * Integrated **Sprinklr** into the Fixed Deposit lead journey and consent workflows for the **largest private bank in India (70M+ customers)**.
- * Enabled **1M+ users/month** to edit personal details and opt for FD products across **40+ partnered banks**.
- * Created an interface used by **5,000+ bank agents daily** to manage pre-approved offers and send automated SMS alerts to customers, leading to a **30% increase** in agent-led credit conversions.
- * Integrated **Perfios** into the credit card co-browsing system for **50K+ monthly users**, enabling secure financial data analysis in real-time with **100% data privacy** via masking of sensitive information.
- * Added manual document upload support, increasing premium credit card conversions by **10%** through expanded eligibility options.
- * Leveraged **Firebase** to implement real-time session sync between agents and customers, reducing drop-offs by **15%** and improving onboarding time by **20%** as part of the **Card Assist program**.
- * Improved overall UX and performance by **20%** by developing reusable components and modular design.
- * Reduced codebase size by **25%** by designing scalable and maintainable components.
- * Resolved **25+ critical production bugs** in credit and Aadhaar consent workflows, decreasing transaction failures by **8%** and achieving **98% system uptime**.
- * Automated document processing using a Python + Playwright system, generating **500+** documents daily, reducing manual workload by **40%**, and maintaining **99%** data accuracy for **10,000+** users.

PROJECTS

Real Estate Website / *React.js 18, Node.js, Express, MongoDB, Redux Toolkit, Chakra UI*

- * Developed a responsive full-stack real estate platform compatible with **5+ device types**, improving user satisfaction across form factors.
- * Implemented secure user authentication and a multi-filter search system, enhancing user search efficiency by **30%**.
- * Optimized website performance with responsive layouts and lazy loading, decreasing load times by **25%**.
- * Engineered modular, reusable components, accelerating feature iteration speed by **40%**.

Personal Portfolio Website / *React.js 18, TypeScript, Tailwind CSS, Framer Motion*

- * Built a clean, interactive portfolio website showcasing projects and skills, resulting in a **95+ Lighthouse score** across performance and accessibility metrics.
- * Reduced page load time by **20%** through component-level code splitting and image optimization.

Realtime Chat App / *React.js 18, Firebase, Firestore, Redux, Redux Persist, CSS*

- * Built a full-featured chat app supporting **100+ concurrent users**, enabling real-time messaging with low latency.
- * Leveraged Firebase Firestore for scalable data storage and instant message retrieval, improving performance by **20%**.
- * Utilized **Redux** for scalable global state management and integrated **Redux Persist** to retain user sessions across reloads, improving session continuity and reducing recovery time by **15%**.

EDUCATION

Netaji Subhash Engineering College

Bachelor of Technology in Information Technology

Kolkata, West Bengal

August 2021 – July 2025
